

## **New Juniors Online Tournament Results Reporting**

*Charles Ezigbo*

CHRVA is in the process of incorporating a new feature that allows online reporting of tournament results. Tournament directors that have Wi-Fi access at the site of a tournament now have the capability of entering match data online at the completion of each match. The public will have immediate access to these results for real-time viewing on your internet enabled device. Yes, you can now use your smartphone, tablet, or computer to keep up to date with the progress of your favorite tournament. No more waiting weeks for the results to appear on the Juniors site!

The tool was written to fit specifically into CHRVA junior tournament coordinator's workflow and will fit seamlessly into the current user experience on the Juniors portion of the CHRVA website. If this tool is chosen to be used by the region administration, the goal is to have 100 percent online reporting next season. Additionally, there could be other new features offered next season as a result of this new tool such as the download of tournament results for export into other systems and other tournament tracking features.

For the remainder of this year, specific tournaments, including Regionals, will be targeted as beta tests sites for this tool. If you have not done so yet, log onto the juniors site on [CHRVA.ORG](http://CHRVA.ORG) and try it out for yourself. Contact [Charles.Ezigbo@chrva.org](mailto:Charles.Ezigbo@chrva.org) if you have constructive feedback on the tool.
