Congratulations to all teams who participated this year!

One of the Region's elite players, Aaron Russell (MVP 18s), just finished playing with the US Boys Youth Junior National Team at the World Championships in Buenos Aires, Argentina. The team finished 11th, by defeating Egypt in five sets. The full article can be read on the USA Volleyball website, or by clicking here - [Junior Boys' World Championships](#). Congratulations Aaron!

The season has just started, and we had our first tournament of the year on 12/4 at the Delaware Sports-Plex. We are excited that we are increasing the Boys' Division at the Capitol Hill Classic on President's Day weekend to a 20-team tournament! We are still looking to have more in-region tournaments for the boys. In other news, the NVVA 18s team just won the 30-team Moravian College tournament in PA, competing against the better teams in PA and NJ. Congratulations!

We are continuing to try and grow the boys program, and increasing the number of boys teams in the region. We are hoping to add onto the programs offered to boys, particularly those for younger players. Adult Players, Girls Programs – We need your help! Promote the sport to any boys involved with you and your teams—sons, nephews, cousins, brothers, and even boyfriends who attend the tournaments are a great start!
