

Participation between clubs: remember that players registered with one CHRVA team may participate in other USAV-sanctioned and CHRVA-sanctioned practices, open gyms, training, fellowships, competitions and tournaments that do not compete in the same type of events and format as the CHRVA team. For example, a CHRVA player registered with a CHRVA team under one CHRVA club for indoor sixes competition may train for and complete in doubles events (or receive individual training) under another CHRVA club or a coach affiliated with another CHRVA club. However, a player registered with a CHRVA team for indoor sixes competition may not practice and compete for another indoor sixes team.
